Acceptance probability (STD factor 1.30)
Probability of retaining the sample
Deviation z (original STD units)
Square-root cap
Flat cap
Tail coverage (STD factor 1.30)
Two-sided tail share (%)
Tail threshold t (original STD units)
Square-root cap
Flat cap
Gaussian target
Closeness to the Gaussian target
Total variation from target (%)
STD factor k (selected / original)
Square-root cap
Flat cap
